

Enhancing Global Learning Experiences:

**Erasmus+ Projects at Djilali
Bounaama Khemis Miliana
University**

What is Erasmus+ Program?

- Erasmus+ is the European Union's program for education, training, youth, and sport. It promotes international cooperation and mobility in higher education and provides funding for universities to engage in collaborative projects.
- Erasmus+ projects aim to foster intercultural understanding, enhance academic cooperation, and offer students the chance to study or intern abroad.

Djilali Bounaama Khemis Miliana University and Erasmus+

- Djilali Bounaama Khemis Miliana University actively participates in the Erasmus+ program.
- We have established partnerships with universities across Europe and actively engage in mobility projects.
- Through these projects, our students and staff have gained valuable international experience and broadened their horizons.

Erasmus+ International Partners

In the framework of the Erasmus+ Program, Djilali Bounaama Khemis Miliana has established many collaborations with international Institutions:

- University Of Ioan Alexandru Cuza -Iass -Romania
- University Of Sapienza - Roma -Italy
- University Of Cadiz -Spain
- University Of Akdeniz -Antalya- Turkey
- University Of Lieg- Belgium

Types of Erasmus+ Projects

1

Student Mobility

Our students choose from a wide range of partner universities across Europe to attend study, developing valuable skills, adaptability, and intercultural competence along the way.

2

Staff Mobility

The academic and administrative staff of all the university can participate in teaching or training assignments at partner universities and foster exchange of knowledge, best practices and professional development.

3

Strategic Partnerships

Our future vision is to build strategic partnerships with European institutions that focus on joint research, curriculum development and sharing of resources.

Benefits of Erasmus+ Projects

Personal and Professional Growth

Students gain a global perspective, cultural sensitivity, and enhanced language skills, while teachers can develop new teaching methods, broaden their networks, and gain international recognition.

The administrative staff can improve his management and administrative skills

Enhanced Learning Environment

Exposure to different academic systems and teaching methods improves the overall quality of education at our university. Students as well as teachers bring back their experiences and enrich classroom discussions and projects.

International Networks

Erasmus+ projects facilitate the establishment of long-lasting partnerships and networks with European universities and organizations. These collaborations open doors for future research, exchange programs, and joint initiatives.

Success Stories

Experiencing New Cultures

Abdelmadjid Feassaoui , a
Phd student of DBKM
University, spent one
semester in Sapienza, Italy,
and reported that the
experience allowed him to
expand his horizons and
developp his knowledge.

International Research Collaboration

Dr Yahiaoui Ibrahim from Faculty of
Nature, Life & Earth Sciences
benefited from teching mobility in
the University of Iasi- Romania ,
which enabled him to meet foreign
students and teachers and give cours
on "*the integration of Land Cover
concepts in the spatial management
of natural resources*". For him, it was
an incredible experienceand

Professional Development

Several of our teachers and
administrative staff returned
with new strategies to engage
and inspire students and to
improve professional
environment.

The first Transnational Erasmus+ virtual exchange project in Algeria

KORAN Aziza, an EFL teacher at the Faculty of Letters and Languages, succeeded in launching the first Transnational Erasmus+ virtual exchange project in Algeria, promoting, thereby, internationalisation for everyone and allowing the non-mobile majority equitable access to inclusive internationalisation practices through the concept of internationalisation at home (IaH)..
