WELCOME TO OUR UNIVERSITY

Dear students,

I am pleased to warmly welcome you on behalf of Djilali Bounaama Khemis Miliana University. We are delighted to have you join us for your next academic journey and look forward to supporting you in achieving your goals at Khemis Miliana University; we are committed to providing a stimulating and supportive learning environment that fosters academic excellence, personal growth, and cultural diversity. With a wide range of programs and courses taught by experienced faculty members, you will have the opportunity to develop your skills, broaden your knowledge, and prepare for a successful career. As an international student, you will also have the opportunity to immerse yourself in Algerian culture and experience the warmth and hospitality of our people. We encourage you to take advantage of the many resources and activities available on campus and in the community and engage in cross-cultural exchanges with fellow students and faculty members. We are confident that your experience at Khemis Miliana University will be rewarding, and we look forward to supporting you every step of the way. Once again, welcome to our University, and we wish you all the best in your academic career. Sincerely,

Sincerely,

Prof. Mohamed-El-Cheikh BERRABAH

Rector of DJILALI BOUNAAMA KHEMIS MILIANA UNIVERSITY

About Us

Djilali Bounaama Khemis Miliana University is a public university located in the town of Khemis Miliana, in the Ain Defla province of Algeria. It was founded in 1997 and named after, "Djilali Bounaama", an Algerian nationalist and leader of the Algerian War of Independence. It includes 19000 students, 20 laboratories, 21 doctoral formations, a FAB-LAB, and an Incubator. The university offers a wide range of undergraduate and graduate programs in various fields, including economics sciences, technology, humanities, social sciences, and languages, Medicine and A.I (The second training programme in Algeria). It provides a high-quality education that prepares students for successful careers and contributes to the development of society. Djilali Bounaama Khemis Miliana University is known for its strong research programs and collaborations with national and international institutions. Its research activities cover a wide range of areas, including renewable energy, water resources management, information technology, language and culture, history, and social and economic development. With 9 faculties, 1 Institute and 2 Annexes and a vibrant student community, Djilali Bounaama Khemis Miliana University is a dynamic and welcoming institution that is committed to excellence in teaching, research, and service to society. The university is awarded the "Study in Algeria label", with a one-star rating, in recognition of our efforts to create a welcoming and high-quality learning environment for international students.

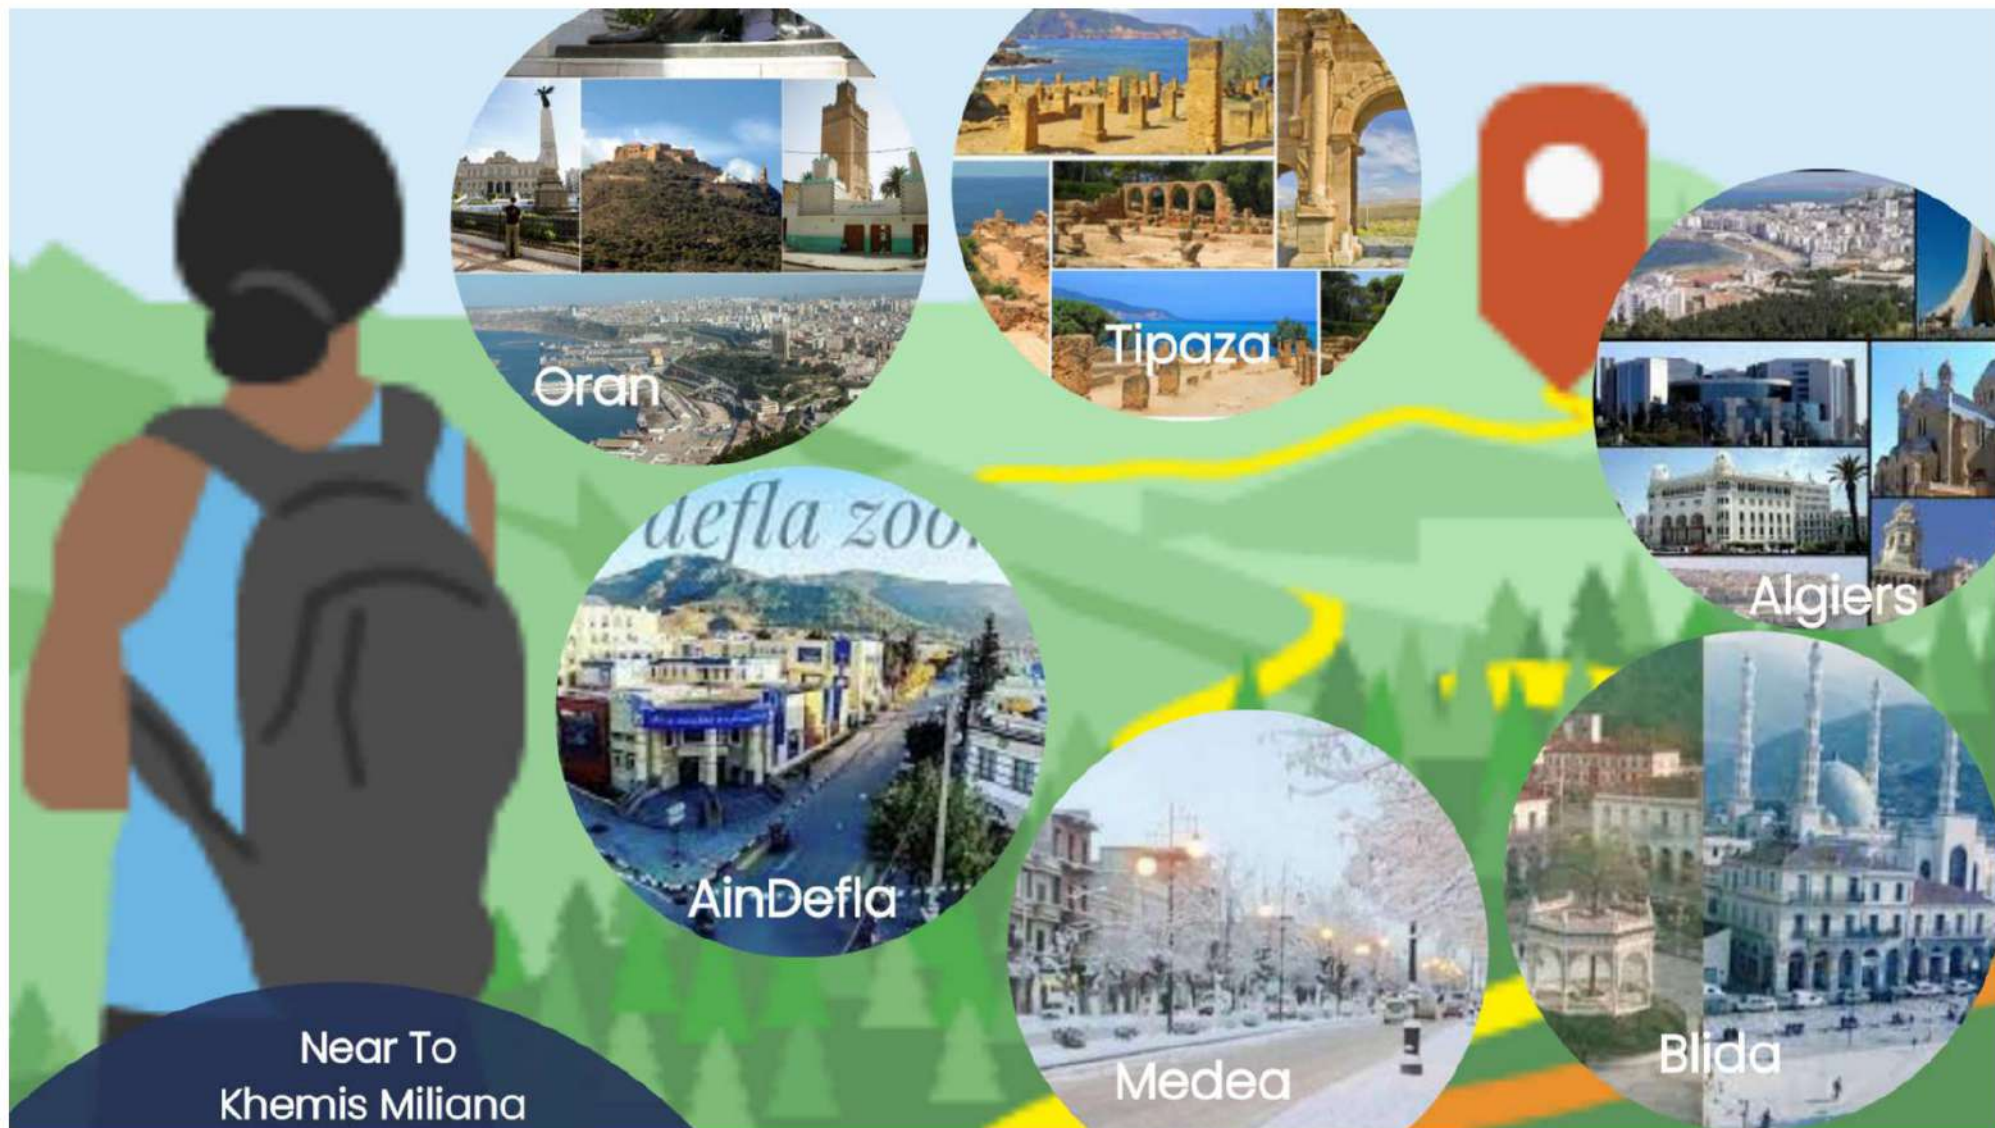

KHEMIS MILIANA CITY

Khemis Miliana is located in the province of Aïn Defla in the north-central part of Algeria. The city is about 120 kilometres southwest of Algiers, the capital of Algeria.

Khemis Miliana is situated in the Titteri valley and surrounded by the Titteri mountains. Beautiful mountain landscapes surround the city, and it enjoys a mild climate. Khemis Miliana is well-connected to other cities in Algeria, with several major roads and highways running through the city.

The city is also served by a train station, connecting to other cities in Algeria, including Algiers. Facilities in Khemis Miliana Khemis Miliana is a small city, but it offers a variety of facilities and infrastructures to its residents and visitors. The city has several hospitals, clinics, and medical centres that provide quality healthcare to the local population. Khemis Miliana also has a vibrant marketplace where visitors can find a variety of goods, including local handicrafts, clothing, and food. The market is open daily and is a great place to experience the local culture and interact with the friendly people of Khemis Miliana.

DJILALI BOUNAAMA

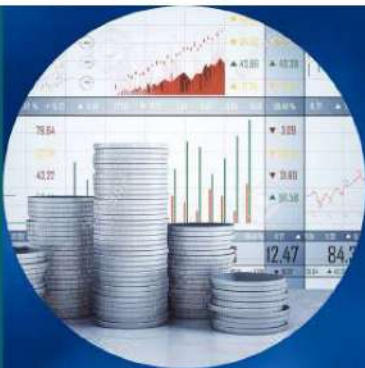

Djilali Bounaama Si Mohamed, war name, was born on April 16, 1926, in Douar Beni Hendel (Ouarsenis), to a father who was a grocer. Despite not finishing primary school, he worked at the Boucaid zinc mine near Orléansville (Chlef) and became a General Confederation of Labour (CGT) trade unionist. He was also an activist of the Algerian People's Party (PPA), the Mouvement for the Triumph of Democratic Liberties (MTLD), and a member of the Special Organisation (OS). In 1951, he organised the Boucaid miners' strike, which lasted four months. Since the OS was dismantled and he was wanted, he left for Belgium to work in the Borinage coal mines. Upon returning to Algeria, he was arrested on November 6, 1954, and imprisoned in Orléanville, then Barberousse (Algiers). He was released in November 1955 and joined the Algerian army troops in the Ouarsenis massif. Djilali Bounaama played a significant role in the Algerian War of Independence against the French Army from 1954 to 1962. He was the head of the fourth region during the war and became the military chief of Zone 3 of the historical Wilaya 4 in 1957. He became the Commander, an army assistant to Colonel M'Hamed Bougara in late 1958. He took over from Si Salah (Mohammed Zamoum) to lead Wilaya 4 without ever being promoted to colonel.

Djilali Bounaama died on August 8, 1961, in Blida, in the explosion of the villa Naïmi which served as a refuge for the military leaders of Wilaya

WHY CHOOSE US ?

Studying at our University is an excellent opportunity to practice and improve your language skills. Arabic and French are widely spoken in Algeria; exposure to them in an academic setting will help you become more proficient in both.

Algeria is a country with diverse landscapes, rich history, and warm hospitality. Choosing our University gives you the chance to explore its stunning natural beauty, archaeological sites, and historical landmarks during your downtime.

Studying in Algeria can be more cost-effective compared to other popular study abroad destinations. This allows you to pursue your academic dreams without the added financial burden of high tuition fees.

Unique learning experience: the opportunity to immerse yourself in Algerian culture and gain a unique perspective on education. This enriching experience will broaden your horizons and contribute to your personal growth.

A wide range of undergraduate and postgraduate programs are offered, including management, engineering, and humanities. This variety ensures that you can find a program that aligns with your interests and career goals.

RESEARCH OPPORTUNITIES

Renewable Energy:
Students can work on research projects related to sustainable energy, including the use of solar, wind, and hydroelectric power.

Agriculture, Ecosystems & Environment
Students can make research about the interface between agroecosystems and the natural environment, specifically how agriculture influences the environment and how changes in that environment impact agroecosystems

Water Resources Management:
Students can participate in research projects on water resources management, such as water quality monitoring, water treatment technologies, and water distribution systems.

Information Technology:
Students can work on research projects related to information technology, such as artificial intelligence, data science, and cybersecurity

INTERNATIONALISATION POLICY

Djilali Bounaama Khemis Miliana University has a strong commitment to internationalisation and is actively working to promote a more diverse and inclusive learning environment. The University's Internationalisation policy is designed to foster global engagement, cross-cultural exchange, and knowledge transfer, while also promoting the development of globally competent graduates

Overall, Djilali Bounaama Khemis Miliana University's internationalisation policy is designed to promote a more inclusive, diverse, and globally engaged learning environment. The university recognizes the importance of internationalisation in preparing students for success in an increasingly interconnected world, and is committed to providing students with the skills and experiences they need to succeed in a global context.

International Partnerships: The University has established partnerships with many international institutions and to facilitate collaboration and knowledge exchange

Student Mobility Programs: The university offers a range of student mobility programs, including study abroad programs, international internships, and exchange programs to gain global experience and exposure

International Curriculum: The University is working to develop an international curriculum that reflects global perspectives and issues, and that prepares students for global citizenship and leadership.

International Research: The University encourages staff and students to engage in international research collaborations, and to participate in international conferences and other research-related activities.

Language and Cultural Programs: The University offers language and cultural programs to help students develop intercultural competence and communication skills, and to promote understanding and respect for different cultures and perspectives.

What to do to study in Algeria?

Algeria offers a wide range of academic programs and disciplines across its universities and educational institutions. Whether you're interested in engineering, medicine, humanities, social sciences, or arts, you'll find numerous options to pursue your desired field of study.

وزارة التعليم العالي والبحث العلمي
Ministère de l'Enseignement Supérieur et de la Recherche Scientifique

What is the admission process for international students?

1.Application:
the student must register on the PROGRES platform, and choose one or more specialisations that match his or her training and career plans. To do this, they must follow the application steps explained below, and then be directed to the Algerian university of their choice.

2.Evaluation:
Once the application is received, the university will evaluate the student's academic qualifications and determine whether they meet the admission requirements for the chosen program of study

3. Language Proficiency:
International students whose native language is not Arabic or French are required to demonstrate proficiency in English by providing a valid language certificate with a minimum of B2 level

4.Admission Decision:
The university will notify the student of his admission decision. If the admission is conditional, the student will need to meet certain requirements, such as providing additional documentation or passing a language proficiency exam, before being fully admitted.

5. Enrollment:
Once admitted, the student will be required to enroll in the university and pay any applicable fees. They may also need to obtain a student visa and satisfy other immigration requirements

What are the admission requirements for the program you're interested in?

For undergraduate programs, admission requirements typically include a high school diploma or equivalent and a certain minimum grade point average. In addition, some programs may require specific courses or prerequisites to be completed before admission. For graduate programs, admission requirements usually include a bachelor's degree or equivalent and a certain minimum grade point average. Some programs may require specific undergraduate courses or prerequisites to be completed before admission.

International students whose native language is not Arabic or French need to demonstrate English proficiency by providing a valid language certificate with a minimum of B2 level. A certificate is also needed if the chosen programme is provided in Arabic or French. It is important to note that admission requirements may vary depending on the program and the University.

Therefore, it is recommended that you visit the University's website or contact the Vice rectorate in charge of External Relations directly to obtain specific information about the admission requirements for the program you are interested in

Vice Rectorate In charge Of External Relations

How have the contact information for the admissions office?

You can visit the university's website to obtain the contact information for the Vice rectorate in charge of External Relations Office or other relevant departments

<http://relex.univ-dbkm.dz/en/>

You can usually find contact information for various offices, including the External Relations Office, under the "Contact Us" or "Admissions" section.

Alternatively, you can use the university's search function to find the specific information you are looking for. You can also find all the necessary contact in the section "Contact" of student handbook

If you have any trouble finding the contact information you need, you can also try contacting the university's general information email or phone number, which should be listed on our website. They should be able to direct you to the appropriate department/faculty or provide you with the necessary contact information

Djilali Bounaama Khemis Miliana university has been officially awarded the "Study in Algeria label", with one-star rating, in recognition of our efforts to create a welcoming, supportive, and high-quality learning environment for international students.

Study in Algeria Label

"Study in Algeria" is a label that refers to the opportunities and experiences associated with pursuing higher education in Algeria. Launched by The Minister of Higher Education and Scientific Research , Mr Kamel Baddari, the label aimed to consolidate the attractiveness of university establishments and their visibility, but also to encourage teaching of foreign languages, especially English, to reflect the true positive image of the higher education system in Algeria.

In order to improve the reception conditions and the living environment of international students and doctoral students, the Study in Algeria label defines the procedures and actions for reception, accommodation, procedures administrative, registration, social security coverage, language learning, etc. The granting of the Study in Algeria label makes it possible to establish a climate of competitiveness between Algerian universities for a better reception of students, guests of Algeria, and to contribute to raise the level of quality of higher education and scientific research in Algeria.
